

TREADWELL™

Cementitious Urethane Flooring

Product Data

Description

Aggregate combined with cementitious urethane resulting in a seamless & heavy duty floor. Resistant to thermal shock, impact and food acids make this coating well suited for demanding process environments.

Benefits

- Variable Texture from Slip Resistant to Medium
- Thermal Shock Resistant
- Hygienic – Does Not Harbor Bacteria
- High Chemical Resistance
- Durable & Impact Resistant
- Low Odor & VOC
- Meets ADA, USDA, FDA & OSHA Standards
- Contributes to LEED
- Can Be Applied to 7-14 Day Old Concrete

Typical Uses

- Breweries
- Food & Beverage Processing Areas
- Freezers & Coolers
- Kitchens
- Manufacturing & Industrial Areas
- Wet Areas

Colors

- Comes in 5 Standard Colors

Texture

- Aggressive Slip Resistant
- Medium Texture

Sheen

- Gloss
- Satin

Thickness

- 3/16"
- 1/4"
- 3/8"

Installation Requirements

- Climate Controlled Temperatures Between 60 F & 90 F
- Substrate That is Clean, Sound & Dry
- Permanent Lighting or Equal to the Final Lighting Level
